

Ekansh Pratap Singh

Full-Stack Developer | AI Engineer (Applied AI / RAG / LLM)

Lucknow, Uttar Pradesh, India | ekanshprataps@gmail.com | +91 706 831 7379 | epsingh.in | github.com/Ekanshps |
linkedin.com/in/ekanshsinghyt

PROFESSIONAL SUMMARY

MCA graduate and full-stack web developer transitioning into Applied AI Engineering, with hands-on experience building and shipping Retrieval-Augmented Generation (RAG) pipelines, LLM-integrated applications, and production web products end to end. Comfortable across the stack: React/Next.js on the front end, Node.js/Python and REST APIs on the back end, and LangChain, FAISS vector search, and Hugging Face models for AI features. Runs a small web development and AI-automation studio (DevArea) delivering client sites and AI chatbot integrations, backed by team leadership experience as a competitive eSports In-Game Leader.

TECHNICAL SKILLS

Languages: JavaScript, Python, C, C++, HTML5, CSS3

Frontend Development: React, Next.js, Responsive Web Design, GSAP, Framer Motion, Three.js, UI/UX Design Systems

Backend & APIs: Node.js, Express.js, Python, REST API Design & Integration

Databases: MySQL, MongoDB, FAISS (Vector Database)

Applied AI / GenAI: LLM Integration, Retrieval-Augmented Generation (RAG), LangChain, Prompt Engineering, Hugging Face Inference API, Streamlit, Vector Search / Embeddings

Tools & Practices: Git, GitHub, Vercel, SEO Fundamentals, Agile/Iterative Development, Data Basics (NumPy, Pandas, Matplotlib)

Soft Skills: Leadership, Strategic Problem-Solving, Teamwork, Calm Communication Under Pressure

PROJECTS

AI Health Assistant — RAG-Based Nutrition & Diet Planner

Personal Project

Python, Streamlit, LangChain, FAISS, Hugging Face LLMs

GitHub Repo

- Built an end-to-end Retrieval-Augmented Generation (RAG) pipeline: ingested nutrition/health PDFs, chunked and embedded the text, and indexed it with FAISS for semantic retrieval.
- Integrated a Hugging Face-hosted LLM via LangChain to answer user nutrition questions and generate personalized diet plans grounded in retrieved document context.
- Implemented BMI, BMR, and TDEE calculators and delivered the full experience through an interactive Streamlit application.

DevArea — Web Development, SEO & AI-Automation Studio

Founder & Developer

Next.js, SEO, AI Chatbot Integration

devareayt.in

- Design and build client websites and landing pages, and run the studio's SEO foundations and technical content pipeline.
- Integrate AI chatbot and automation features into client sites to streamline lead capture and customer queries.

ReelDownloaderNow — Instagram Media Downloader

Personal Project

React / Next.js, Vercel

Live Demo

- Developed a browser-based tool to download Instagram reels, videos, posts, and stories with no login and no watermark.
- Handled client-side media fetching/parsing and deployed a fast, responsive interface on Vercel.

Saurabh Studio Website — Photography/Cinematography Brand Site

Jan 2026 – Present

GSAP, Framer Motion, Three.js (3D Particle Effects)

- Developed a premium full-stack site for a photography/cinematography brand using GSAP and Framer Motion for scroll-driven animation and a Three.js particle background, plus a custom cursor and an optimized 404 page.

EDUCATION

Master of Computer Applications (MCA)

Aug 2024 – May 2026

Shri Ramswaroop Memorial College of Engineering & Management

Lucknow, India

Bachelor of Computer Applications (BCA)

Jul 2021 – Jun 2024

Dr. Ram Manohar Lohia Avadh University

Ayodhya, India

EXPERIENCE & CERTIFICATIONS

- **Full Stack Web Development Training (Python with Django)** — SRMCEM, Lucknow (Aug 2025)
- **Hospital Management System — Development Intern**, Appozon Technologies Pvt. Ltd. (Nov 2023 – Dec 2023): contributed to a web-based hospital management system.
- **eSports Athlete & In-Game Leader (IGL)**, BGMI — Xplosion Esports: led competitive team strategy, in-match calls, and post-match performance analytics.
